Farmers of Gallia county, you are solicited by the Copperhead leaders of the party in this county to vote for George W. Morgan, for Governor of Ohio. Quite a number of you, have reasons worth from ten to fifty dollars each why you should not do so. Every one of you on the route from Portland to Point Pleasant, will remember the passage of the troops under this redoubtable General in Oct., 1862. You call to mind the visits made to your cornfields. haystacks, orchards, poultry yards, potato patches and the destruction of your fences and timber. You remember also the efforts you then er to deprive you of the right to vote, 1865, for the same office to which he BUTTER member also the efforts you then made to save your property, or to which in short did what it could, to was nominated, and is now support CHEESE made to save your property, or to obtain compensation for it in some aid the South in their bloody work. ed by Vallandigham. Are not both SEGAR COFFEE COFFEE They be compensation for it in some of the same stick?" They coffee the same stick?" way. You remember the kind of documents given you by Morgan's officers, for your property, and the ineffectual efforts to collect your pay.

Now one of the articles of this fact, vote for him, and against a man, who remains true to the principles for which he went to war, the integrity of the Union and aslystion of the vote of the Union and aslystion of the vote of the vote of the vote of the Union and aslystion of the vote of the vot Now one of the articles of war, of of the Union and salvation of the the eggs with your ballots, and finish which Gen. L. Vance did for the same officer willing to lead. Why then should you refuse him your votes on that ground? He bears about him the private soldier to go where he was not willing to lead. Why then should you refuse him your votes on that ground? He bears about him the marks of the enemy's work. He never gave up, until struck down on the field. Brave among the bravest, he shirked no hardship, claimed exemption from no duty, until rendered helpless by the bullet of the foe. Does Col. Vance show any thing su perior to that. If not can he justly claim your votes, against Col. Montgomery? We know you will decide otherwise.
